

Software Engineer

Role

WBT Systems are looking for an experienced, highly motivated Software Engineer to join our vibrant team in Dublin.

The candidate will use their technical and engineering skills to work in the R&D team building excellent new functionality in the TopClass Product suite. This will be a role, based on the foundation of Java, but requiring the candidate to demonstrate flexibility and an aptitude to learn supporting technologies.

R&D operates in an agile environment, so experience with this is a bonus.

The right individual for this role will be a motivated and energetic developer who takes initiative, enjoys finding solutions to a varying number of challenges, is detail-oriented, and takes extreme pride in their work.

The successful candidate will be a dynamic, self-starting individual who will typically have 3-5 years of working in a Java based R&D environment.

Responsibilities

- Design and develop new functionality for TopClass
- Write well designed, testable, efficient code
- Supporting and troubleshooting product issues
- Liaise with internal staff to assist with knowledge transfers to the WBT Service team
- Write and maintain appropriate documentation
- Contribute to the continuous improvement in the TopClass product suite through continuous review, refactoring, etc.
- Contribute to improving our current build and continuous integration process

Required Skills

- Proven work experience in Java development
- Working knowledge of continuous integration tools: Maven, Nexus and Jenkins
- Proficient in working with GIT
- Proven work experience with Eclipse IDE
- Exposure to Spring and Hibernate
- Good working knowledge of web technologies including HTML, JavaScript, jQuery, XML, CSS, AJAX
- B.S. degree in Computer Science, engineering or equivalent experience

Preferable Skills

- Experience with JAX-RS
- Experience with Test Driven development
- Familiar with MVC frameworks (e.g. Angular, Ember, React etc.)

Ideal Candidate

- Great verbal and written communication skills
- Self-motivated with a strong work ethic
- Positive attitude and demeanour

- Enthusiastic when embracing new challenges
- Able to multi-task and prioritize (good time-management skills)
- Ability to listen patiently and learn from others
- Adaptable and flexible when new tasks or projects are given

Benefits

- Excellent remuneration
- Pension
- Health Insurance
- Up to 25 days annual holidays
- City centre location (Remote working during Covid-19 pandemic, in accordance with Public Health guidelines)
